## Features & Benefits:

- The PowerGATE Power Input Panel is a safe, convenient and economical means of connecting emergency generator power to a building, in conjunction with a transfer switch
- Cables with 16 Series Cam-type Connectors can connect directly to the inputs, saving crucial time in emergency situations
- Cables drape downward for lowest profile against wall
- Tamper proof design limits access to connected cables
- Weatherproof construction for installation on building exterior, ensures long life
- Dead front panel covers all exposed electrical parts for added safety
- Padlock hasp prevents unauthorized entry
- Individual cable holes restrict access reducing theft
