 Cable Assemblies

DataSNAKE™ DMX Multi Cables - FOH Version
 (4) 5 Pin XLR, (1) 3 Pin XLR, (1) NEMA 5-15 Edison Extension

Catalog Number:
DS45P3P515XX

Description:

DataSNAKE extension with (4) individually jacketed DMX512 Universes, an intercom line, and a NEMA 5-15 Edison Extension, all in one flexible, tour-grade overall jacketed cable.

Features & Benefits:

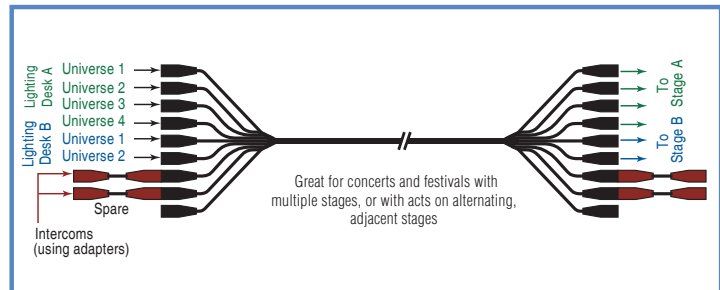

- Saves the time and the hassle of installing, taping and striking multiple cables to front of house positions
- Neater, more professional and longer lasting than individual or banded cables
- Works with conventional XLR type DMX cables
- Custom connector and marking options to meet your exact needs

Typical Applications:

Theatres, Live Events, Concert Touring, Convention Centers. Great for concerts and festivals with multiple stages, or with acts on alternating, adjacent stages.

Specifications:

Application Example
