

We Deliver the Power™

Cable Extensions & Assemblies

EverGrip® Molded Class L Cable Tie-Ins

For Military and Commercial Use

Features & Benefits

- Thermoplastic resin premold encapsulates conductors to provide superior strain relief and keep pins and conductors secure
- Santoprene™ overmold absorbs impact, protects internal conductors and is resistant to a wide variety of chemicals
- Covers connected by corrosion resistant stainless steel chain and hardware provide environmental sealing when the connector is not mated
- Flexible strain relief extends cable life and eliminates need for mesh grip
- Ergonomic design provides an insulated and secure gripping surface for easier mating and safe handling of connectors
- Provides a convenient method to connect to generator lugs for temporary power applications

EverGrip® MIL-DTL- 22992 Class L Molded Tie-Ins

Rating	Male Connector	Cable	Female Connector	Catalog No.
60 Amp, 120/208 VAC, 3 Phase	Bare Cable End	6/4 Type G - 4' w/ (4) #12 Gds	3 Phase, 4 Wire, Grounding*	MILEGTF60-4
100 Amp, 120/208 VAC, 3 Phase	Bare Cable End	2/4 Type G - 4' w/ (4) #9 Gds	3 Phase, 4 Wire, Grounding**	MILEGTF100-4
