PowerFLEX™
Cable Assemblies

EverGrip™

Maintenance-Free Molded Multi-Cable Assemblies

UNPRECEDENTED
5 year
limited
warranty

unique
weatherproof
cover option

- **Maintenance free**
lower total cost of ownership
- **Enhanced safety**
grounding ring cannot loosen
- **Eliminate downtime**
no pushed pins or broken conductors
- **Easier to connect**
ergonomic body & locking ring
- **Exceptionally tough**
solid molded construction
- **Impact resistant**
locking ring is rubber coated
- **Reduce loss**
with custom molded logo option
- **Use indoors or out**
with weatherproof cover option

Rating	Male Connector	Cable	Female Connector	Catalog Number
20A, 125VAC (6 Circuit)	Molded Lex Socapex® Compatible	12/18 TPR	Molded Lex Socapex® Compatible	EGME1218-XX
20A, 125VAC (6 Circuit) Ground Conductors Bonded	Molded Lex Socapex® Compatible	12/14 TPR	Molded Lex Socapex® Compatible	EGME1214-XX

XX specify cable length. Standard lengths are 5', 10', 15', 25', 50', 75', 100', 125', 150', and 200'. We will also accommodate custom lengths.
Add suffix -WP for Weatherproof cover on female connector

Socapex® is a registered trademark of Amphenol.

What is Overmolding?

EverGrip™ premold

EverGrip™ connectors go through two separate molding processes to ensure that they are **exceptionally tough, remarkably safe, and maintenance free.**

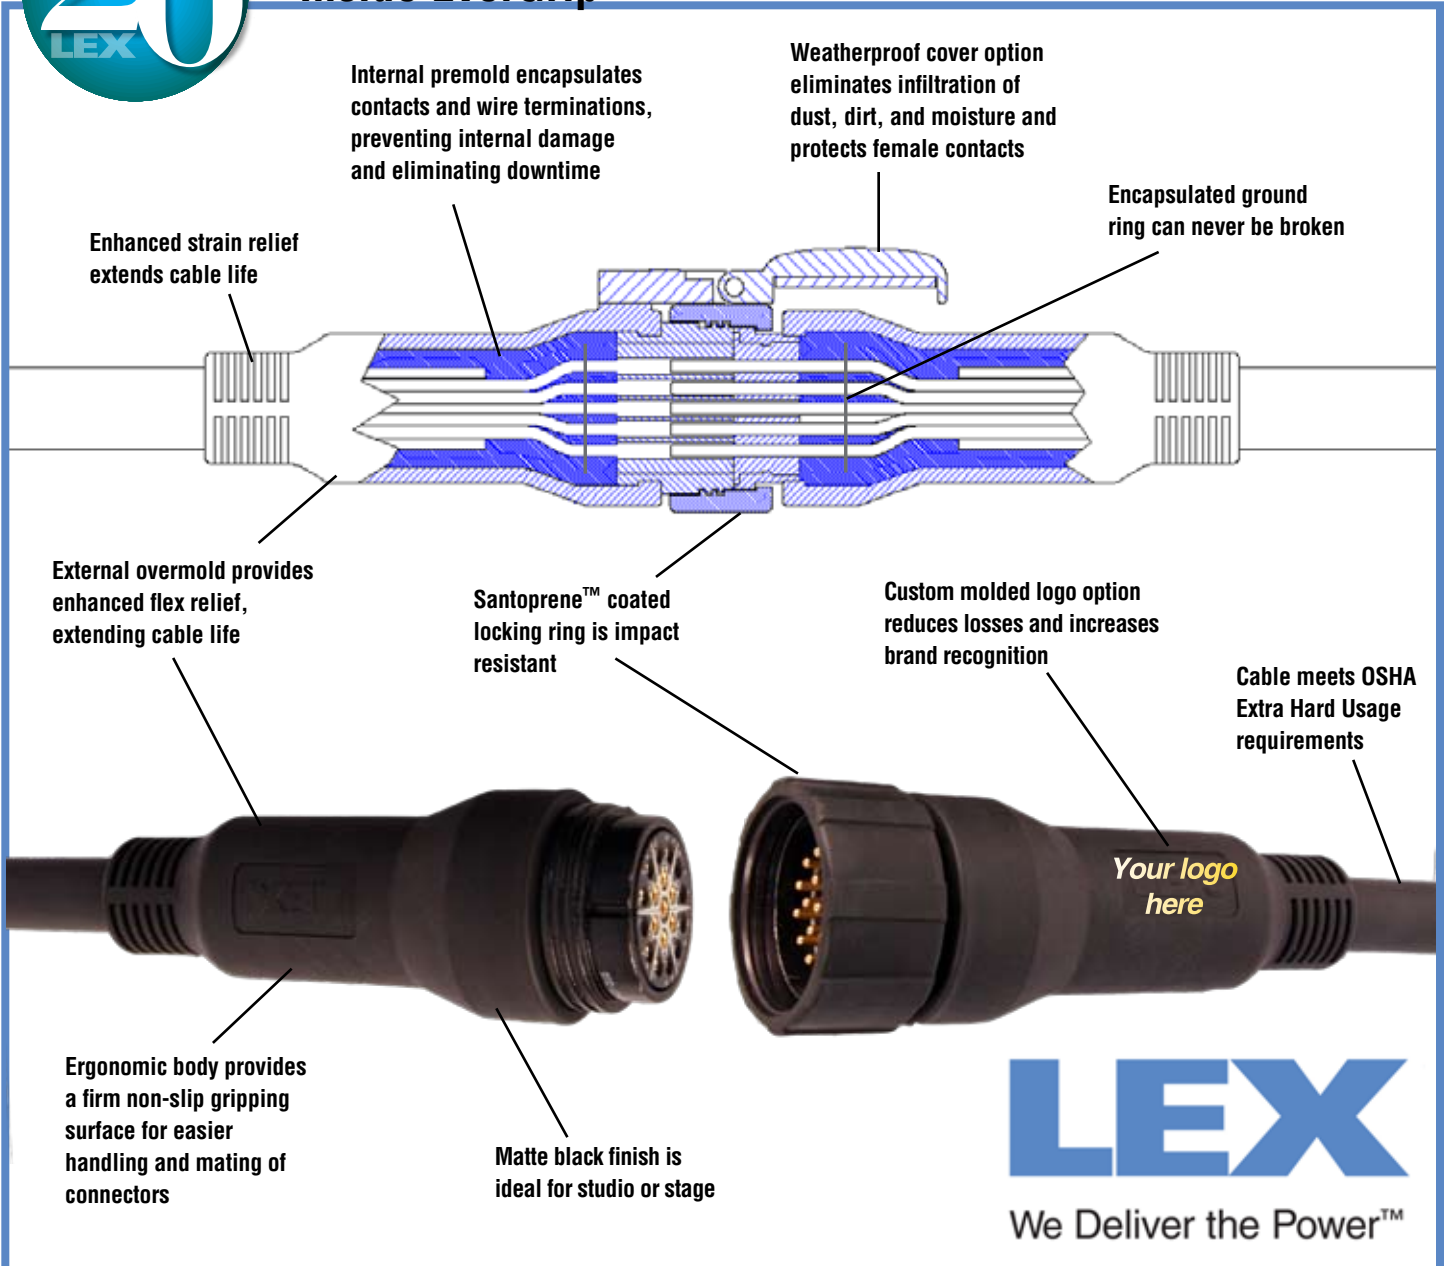

The core of EverGrip™ is a polypropylene premold. It provides a mechanical bond between the cable and connector and considerable environmental sealing of the terminations. Because the premold encapsulates the contact and wires, the possibility of pushed pins is eliminated and the ground ring cannot loosen.

The Santoprene™ external overmold doesn't just look nice - it provides superior flex relief. The solid molded construction is impact resistant and covers all aspects of the connector - even the locking ring. This means total surface insulation when the devices are mated. Together, all of the advantages of overmolding can **double the flex life** of your assemblies.

We're so confident that we're offering a **5 year limited warranty** - an unprecedented offer for multi-cable.

Inside EverGrip™

Internal premold encapsulates contacts and wire terminations, preventing internal damage and eliminating downtime

Weatherproof cover option eliminates infiltration of dust, dirt, and moisture and protects female contacts

Encapsulated ground ring can never be broken

Enhanced strain relief extends cable life

External overmold provides enhanced flex relief, extending cable life

Santoprene™ coated locking ring is impact resistant

Custom molded logo option reduces losses and increases brand recognition

Cable meets OSHA Extra Hard Usage requirements

Your logo here

Ergonomic body provides a firm non-slip gripping surface for easier handling and mating of connectors

Matte black finish is ideal for studio or stage
